

## Open Ranking Road Rules

### Access to the Competition

The Open Ranking Road competition is open to all players, allowing participation even without a prior VRS MPR record.

Players can obtain a VRS MPR average after completing a minimum of 10 games. This average will enable them to access the VRS with levels.

### Qualification

To qualify for this competition, players must complete at least 10 games.

The competition consists of 12 qualifiers, each lasting one month.

During each qualifier, players must play a minimum of 10 games to earn points. There is no maximum limit on the number of games, so players can play as many as they wish.

At the end of each qualifier, players will be ranked in a general leaderboard, ordered from highest to lowest based on the VRS MPR obtained from their best 5 games during that qualifier.

### Scoring and Ranking

Points will be awarded to players who achieve one of the winning positions in the ranking.

The winning positions are as follows:

1, 2, 3, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100.

### Competition Duration

This process will be repeated for all 12 qualifiers of the competition.

### Point Redemption

At the end of the 12 qualifiers, players can redeem the points earned for exclusive prizes:

- **10 points:** Official Player Polo + Registration Pack for 1 Bullshooter EU event + Dart Towel.
- **8 points:** Official Player Polo + Registration Pack for 1 Bullshooter EU event.
- **6 points:** Official Player Polo.

### **Special Considerations**

The registration pack is valid for a Bullshooter championship within the 2027 calendar year.

Regardless of having obtained the registration pack, players must meet the requirements established by the championship organizer, including having an average in the official Bullshooter league.
